

Academic Team:

First-Year Experience Seminar Instructor

Frances White
fwhite@uoregon.edu

FIG Assistant

Lorien Sweet
lsweet@uoregon.edu

Next Steps:

1. Learn more about your FIG by visiting its page (linked below)
2. Complete your Fall Term Checklist
3. Follow uofigs and uo_fye on instagram

@uofigs
@uo_fye

About the FIG:

Animal Behavior draws connections between the biological approach to studying the animal behavior with the anthropological focus on primates, our own complicated relationships with animals, and critically thinking about how important animals are to people. Examining the ethical treatment of animals in captivity and the importance of conservation in the wild, as well as a field trip to see primates, are central elements in this FIG. The FIG Seminar is a time to engage with both Dr. White and your FIG assistant about the topics you are learning in class, as well as concerns you have about your academic career in general.
