FIG Guide

Get the most out of your time at the university by joining a First-Year Interest Group (FIG) during fall term. FIGs bring groups of 20 freshmen together for a unique academic experience. FIG students take three courses together during fall term: two lecture courses and a 1-credit College Connections course.

FIGs are all about making connections! In a FIG, freshmen:

- Connect with faculty
- Connect with an undergraduate mentor
- Connect academic courses from different disciplines
- Connect with an academic theme
- Connect with peers
- Connect with campus and the Eugene community

The FIG Guide will help you explore your FIG options. For fall 2019 we have over 50 FIGs – something for everyone!

Table of Contents

FIG Theme Categories 2-4
ConFIGurations 5-11
Chemistry FIGs Enrollment, Prerequisites & Corequisites 12

Students in the Speak Your Mind FIG spend time in the UO Brain Development lab with Professor Charlotte Vaughn

Theme Categories - Description - FIG List

While each FIG is distinct (with different course pairings and academic topics), FIGs are grouped together by overarching themes into seven categories. Find themes below that interest you, and then start exploring your FIG options!

Art of Storytelling

Make sense of the world around us through stories and art

Finding Your Voice (FIG RUNWAY) My Visual Story Night Out: Eugene Theatre (DEEP-DIVE) Our Storied Past Remixing Media, ©ritiquing ©ulture (DEEP-DIVE) Stories We Tell Tales and Traditions: Africa Thinking Media War and Peace

Becoming Human

Discover our humanity through science

Animal Behavior (DEEP-DIVE) Human Genome Humans: An Origin Story Paging Dr. Darwin (CLUSTER) Oregon Outside (DEEP-DIVE) Speak Your Mind

Breaking Barriers

Investigate how different perspectives shape communities

(Anti)Social Media (FIG RUNWAY)
Breaking the Wall
Brilliant Imperfections (DEEP-DIVE)
Face to Face
Human Hierarchies
Media Mirror
Money & Me
Students without Borders (CLUSTER)
This is Me
Tomato, Tomäto (FIG RUNWAY)

Culture in Review

Examine cultures and subcultures through a discerning lens

Conflicting Experiences (CLUSTER) Edible Activism (DEEP-DIVE) Education Revolution Enduring Tensions Hidden History Hip Hop & Politics of Sampling (DEEP-DIVE) Just Futures Pass the Mic (DEEP-DIVE) Social Progress, Social Change

Going Green

Delve in to how we affect the environment and how it affects us

Analyzing Our Environment (CLUSTER) Buses, Bikes & Automobiles Chemistry of Sustainability Edible History Food and the Garden Food Matters

Passport to World Cultures

Explore a region and start on your path to studying abroad

Becoming Bilingual Bella Italia! Carnegie Global Oregon (DEEP-DIVE) (ARC) Development Safari Gurus and Governors International Outlook Maps that Tell Stories (CLUSTER) Say What?

Science and Society

Solve problems and make an impact on the world through science

A Trip Down Memory Lane (DEEP-DIVE) Exploring Planets Making Sense of Numbers Science in the News Startups from the Ground Up The Secrets to Success in STEM

FIG ConFIGurations

(alphabetical order)

In the ConFIGurations section, the FIGs are listed alphabetically and show all of the courses that make up the FIG.

*Chemistry FIGS Registration information, course prerequisites and corequisites

For CH 221 General Chemistry: Prerequisite: high school chemistry; prerequisite or corequisite: MATH 111. Concurrent CH 227 or 237 is recommended. For CH 111 Introduction to Chemical Principles: Prerequisite: Math 095.

Chemistry FIG enrollment will not take place online through Duckweb. Instead, you can join a chemistry FIG at IntroDUCKtion, after you have met with an advisor. **Remember to take your math placement test before coming to IntroDUCKtion. Your advisor will use the test score to help you select the right chemistry track.**

Chemistry FIGs - LIST

Chemistry of Sustainability Human Genome Making Sense of Numbers Science in the News The Secrets to Success in STEM

DEEP-DIVE FIGs

DEEP-DIVE FIGs give students a distinct academic experience because they create an immersive learning environment. Some of the DEEP-DIVE FIGs have an intermediate course (which may include 300 level), which are smaller than the courses in many of the other FIGs, and are intended to encourage students to explore subjects in depth. Other DEEP-DIVE FIGs have projects, students groups, performances and more that allow students to really dive deep into subject matter.

DEEP DIVE FIGs - LIST

A Trip Down Memory Lane (DEEP-DIVE) Animal Behavior (DEEP-DIVE) Brilliant Imperfection (DEEP-DIVE) Carnegie Global Oregon (DEEP-DIVE) (ARC) Edible Activism (DEEP-DIVE) Hip Hop & Politics of Sampling (DEEP-DIVE) Night Out: Eugene Theatre (DEEP-DIVE) Oregon Outside (DEEP-DIVE) Pass the MIC (DEEP-DIVE) Remixing Media, ©ritiquing ©ulture (DEEP-DIVE)

Cluster FIGs

Cluster FIGs consist of only one required general education course. A secondary 4-5 credit course is required, but students will choose one from a list of options. (Students are responsible for enrolling themselves in the course they select through Duckweb.)

Cluster FIGs - LIST

Analyzing Our Environment

Course options – **CH 111** Introduction to Chemical Principles, **GEOG 141** The Natural Environment, **ENVS 202** Introduction to Environmental Studies: Natural Sciences

Conflicting Experiences

Course options - **INTL 101** Introduction to International Issues, **SOC 204** Introduction to Sociology, **GEOG 181** Our Digital Earth, **GEOG 142** Introduction to Human Geography, **MIL 121** Military Science I, **PS 106** Power, Politics and Inequality, **PS 111** Introduction to Political Science

Maps That Tell Stories

Course options - **GEOG 181** Our Digital Earth, **GEOG 141** The Natural Environment, **ANTH 161** Intro to Cultural Anthropology, **J 201** Media and Society

Paging Dr. Darwin

Course options - **BI 121** Intro to Human Physiology, **PS 205** Introduction to International Relations, **HYPY 212** Evidence, Inference, and Biostatistics

Students Without Borders

Course options – - **BI 121** Intro to Human Physiology, **PS 205** Introduction to International Relations, **ANTH 175** Evolutionary Medicine

Reacting to the Past FIGs

Reacting to the Past courses consist of elaborate role playing games, set in specific historical time periods. The course instructor will act as the gamemaster, determining student roles, preparing students to play, and occasionally guiding the games as they develop. Students learn to construct arguments from historical texts and then support positions through writing and speeches. Small class size. Credits count toward the general education social science group requirement.

Reacting to the Past FIGs - LIST

Enduring Tensions Gurus and Governors Hidden History

FIG Runways

The Runways program lets students build their first-year around tracking down answers to big, urgent, interesting questions—and blaze a path through their Core Education requirements. Students take a year-long seminar (1 credit in fall, 1 credit in winter, 2 in spring—ALL counting for Core Ed) with one professor and 23 peers. Each seminar is built around a Big Question and includes 2 Core Ed satisfying course linked to the year-long seminar each term. FIG Runways will begin as a FIG in the fall and continue through the runway in winter and spring terms. Each FIG Runway will include a peer mentor called the FIG Assistant (FA).

FIG Runways - LIST

(Anti)Social Media: What does offline human interaction mean in an increasingly online world? Finding Your Voice: How does personal voice transform classroom experience and shape research? Tomato, Tomäto: How does language impact our lives?

What is unique about Carnegie Global Oregon?

The Carnegie Global Oregon DEEP-DIVE FIG continues for three terms, and is the only FIG that also has some students in their cohort who are part of an Academic Residential Community (ARC).

Carnegie Global Oregon students will all be enrolled in the same courses. Students who do NOT want to live with the community will sign up through the FIG Program. Students who want to be in the ARC and live together in the residence halls will sign up through Housing. Please note that ARC selection will supersede your housing preferences for special-interest halls and room types. For more information, and instructions on how to apply to be a part of the ARC, visit housing.uoregon.edu/academics

After the fall FIG courses, students enroll in 1-credit seminars in winter and spring to continue exploring the CGO theme. The majority of CGO students remain active in this vibrant learning community throughout their years at the university. This provides a supportive mix for sophomores, juniors, and seniors who meet weekly for class and a meal to explore areas of ethical concern. For more information, visit carnegieglobal.uoregon.edu

Clark Honors College Students

To avoid duplicating course work, honors college students may enroll in only one FIG in May during Advanced Registration on Duckweb. This FIG is called Carnegie Global Oregon, and is open to students interested in ethics. If you are planning to major in biology, chemistry, or human physiology and are interested in joining a FIG, we encourage you to see us at IntroDUCKtion.
